

NEWS ADVISORY

Force Main Issue Causes Wastewater Overflow

Mobile Area Water & Sewer (MAWSS) responded to a wastewater overflow on December 29, 2024, at 4680 Rangeline Service Road. Approximately 2,400 gallons of wastewater overflowed into Halls Mill Creek because of lift station operation. MAWSS crews addressed the lift station issue and have taken steps to prevent further overflows at this location.

This overflow was reported by a concerned citizen.

What We Are Doing Our Projects

MAWSS has many construction projects and other capital improvement projects. From repairs to new infrastructure expansions and more to help with problems within our system. Check here for a list of current and upcoming projects: [Projects](#)
